

The Edgewood Method

Three Steps to a Cleaner Building.

1

DEBRIS MATTING

Location:

Immediate Entrance,
Elevators, Parking Levels

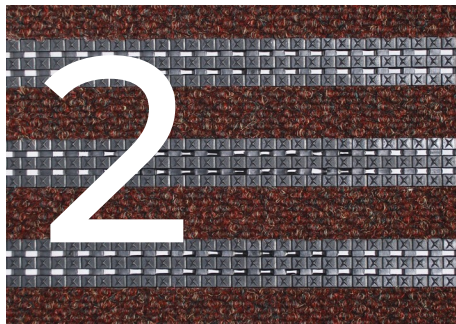

Recommended length:
3 – 5 ft

Description:

This matting removes moisture, dirt, salt, and fine sand from your shoes, making your footwear floor-friendly.

Types:

Gritstop Finger/3M8100
Supreme Knob/3M8850

2

RECESSED-WELL MATTING

Location:

Vestibule

Recommended length:
5 – 10 ft

Description:

After removing larger particles from your footwear with the debris matting, the scraper or recessed-well matting aggressively removes water, snow, and sand from your footwear.

Types:

Debris Trap Supreme,
3M9100

3

WIPER/SCRAPER MATTING

Location:

Interior of entrance

Recommended length:
15 – 20 ft

Description:

These two-way matting systems are the last step in protecting your floors from damage and your staff from slips. They keep maintenance costs low by removing larger particles from footwear, leaving you with an aesthetically pleasing entrance and lobby.

Types:

Supreme Knob/3M8850

enrich your store

supreme knob™

Looking for a way to provide a great first impression and ensure maximum brand visibility for your business? We can take your logo and integrate it into a high quality matting product for your store. These products will help keep your store clean and your customer safe.

how it works

INLAY MATTING: SUPREME KNOB™, EVEREST™ AND TUNDRA

- Logos/graphics are digitally downloaded to a computerized cutting table.
 - Each element of your logo/graphic is precision cut by a state-of-the-art computerized water jet from appropriately coloured inlay matting and fitted into the mat.
- Once the fitting process is complete, the entire design is backed and finished according to agreed specifications.

PREMIER PRINT MATTING:

- Logos/graphics are digitally downloaded to a computerized color injecting unit and is printed on tufted wiper matting material, backed with slip-resistant nitrile rubber.
- This technology gives a clear and detailed image second to none.

Supreme Knob™ is an extremely durable high traffic indoor/outdoor, wiper/scraper mat that cleans footwear thoroughly while protecting your entrance and complimenting your space.

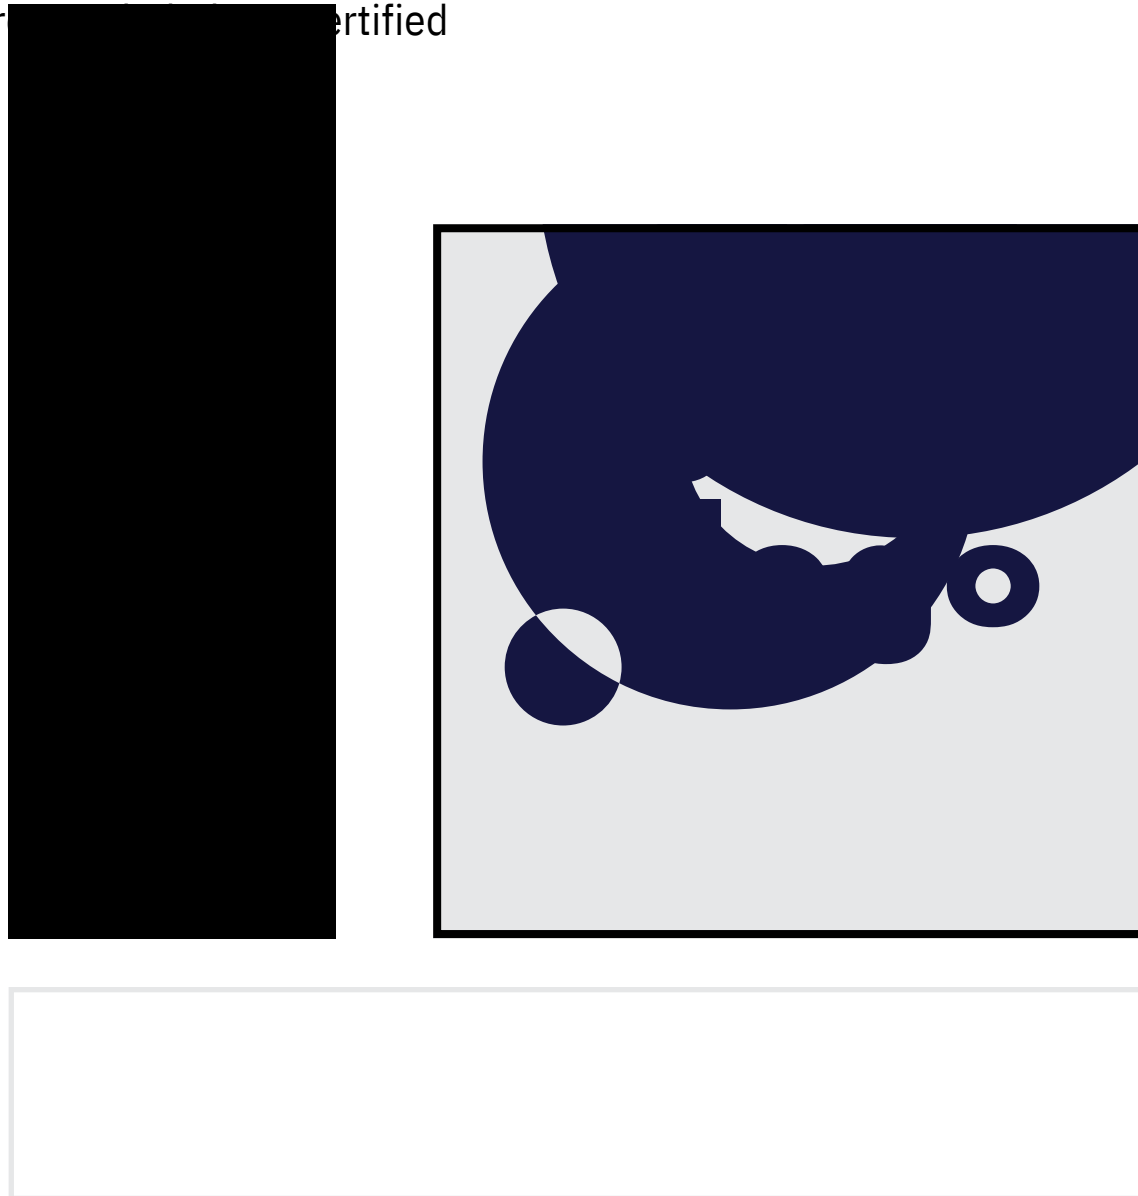

- Wheelchair/walker friendly
- Holds up to 7 L of water per square yard
- Green Label Plus™ Certified

519-291-6513

LOGO SWATCHES

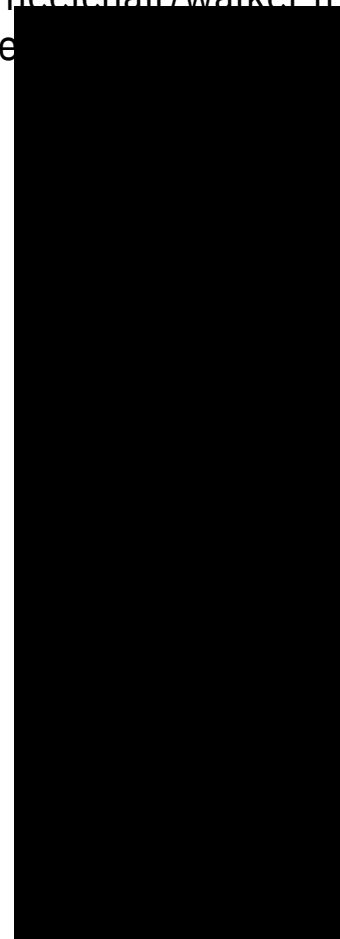

FINE LINE SWATCHES

tundra

Tundra is an aggressive exterior or vestibule scraper matting designed to remove debris before it enters your building. It's easy to clean and maintain, as it has a backing that allow moisture to pass through. It will work in harsh environments and heavy traffic applications.

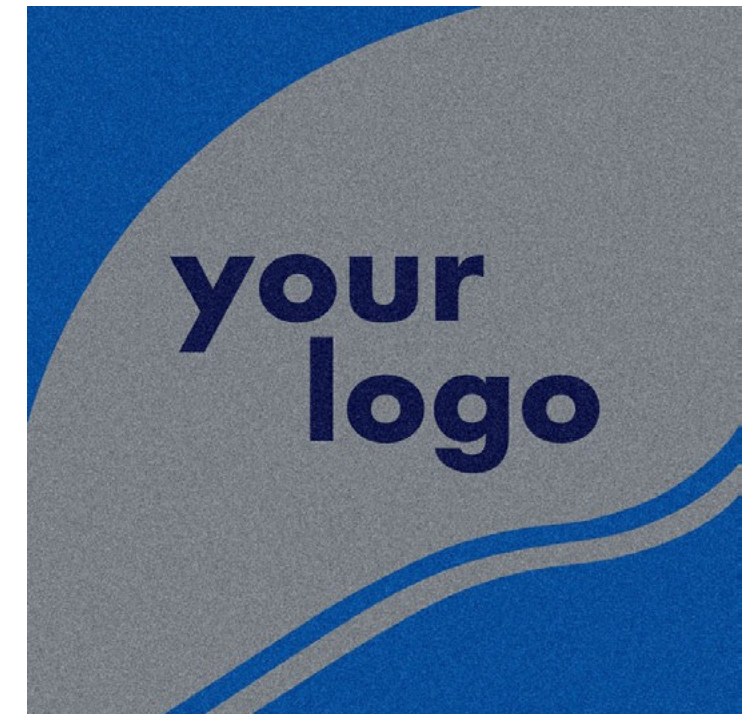

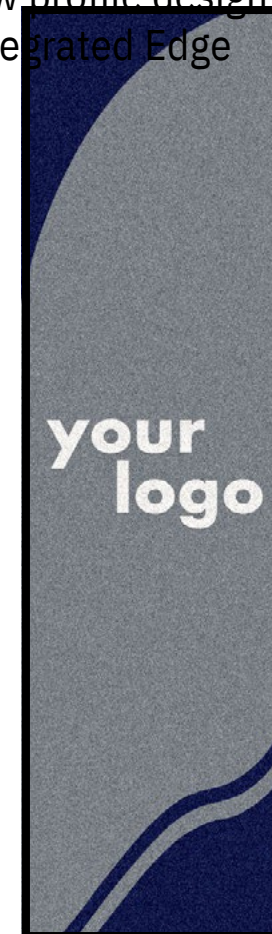

- Ideal for heavy soil applications
- Wheelchair/walker friendly
- Heavy traffic

premier print

Premier Print Logo Mats are wiper mats to help catch fine soil and dry footwear. Durable construction and state-of-the-art printing process provides eye-catching clarity and long life; these mats will enhance appearance of your business and brand for years.

- Chromojet Printing Technology
- Low profile design
- Integrated Edge
